15) 1) Site

The site selected for the town hall has the advantage of being near an important road junction and several other public buildings. It has the disadvantage of being lower than the surrounding land. The Town Hall will practically be in a pit.

The site may be approved provided the estimate includes the following provisions

- A plinth of atleast 3 to 4 feet for the building
- Raising by about 2 to 3 feet in the average and levelling of the ground between the Banasandra Road and the Road to the Pettah all round the town hall
- Compound wall around the hall and formation of a small municipal park
- Re-alignment of roads around and in front of the proposed town hall and the formation of a town hall square with low parapet wall and pillars as per enclosed revised site plan

2) The Design:

16) The design enclosed with the file under reference does not suit the locality. Turvekere being famous for its beautiful stone a stone building would be adequate.

As the rainfall is low the building should be terraced to avoid maintenance.

The main entrance should be on the broad side of the building and this side should face the town hall square.

A suitable design for adoption at Turuvekere is enclosed herewith.

I suggest that the estimate be revised in the light of the above observation.

with reference to your letter No. L 7753 dated 21-1-47 on the above subject, I have the honour to state as follows:-
Government in their order No. L 68-77/21 102-2-112 dated 10-7-47 sanctioned only Rs. 4300/- but no estimate for Rs. 9000/- the working estimate to spend the Rs. 10125/- out of Rs. 4300/- at a savings of Rs. 1 investment of the Rs. 10125/- Government order No. L 4070-3/21 12-42-127 dated 12-10-47 is working, but per up a final estimate. Accordingly view is taken and no work is done

- 2 -

that the present estimate of Rs 19,000/- is not susceptible of reduction. The Municipal Council have resolved in their meeting held on 11-12-37 to agree to accept the estimate for Rs 19,000/- and that the total amount required over the estimate of Rs 9,000/- already placed at the disposal of the Executive Engineer by the Government for the Municipality is a small proportion.

Under these circumstances I request you to instruct the Government to the reduction of the Municipal Council regarding the estimate of Rs 19,000/- and also to see that the present estimate of Rs 19,000/- is the total and is a real necessity at Turuvekere.

Sir,

Subject

Construction of a Town Hall building at
 Turuvekere

ml
 24/9/48
 With reference to your letter No L 15587 dated 6 5 47 and subsequent letter No L 1002, dated 15 7 47, on the above subject, I write to state that the Executive Engineer, Tumkur Division, who was requested to send a revised estimate for the construction of a Town Hall building at Turuvekere in the light of the observations made by the Government Architect in his note, has forwarded a modified estimate for Rs 41,400/- based on the suggestions made by the Government Architect Bangalore

The Municipal council have, deposited a sum of Rs. 4840/- being the Government grant sanctioned under Government order No L 68-77/11 102-42-112, dated 3 7 43 and a sum of Rs 4760/- being the Municipal share of cost to 17(a) P.W. Deposits on 20 7 43 and 27 10 43 respectively to meet the estimated cost of Rs 9600/- prepared in the first instance

The Municipal council have, at their meeting held on 20 4 48, resolved that the Town Hall building of the type now proposed is necessary and that sanction be accorded to the estimate for Rs 41,400/- the balance over and above the amount of Rs 9600/- already deposited, be met both by the Government and the Municipal council in equal proportion, the Municipal share of cost being met by the closing balance of the Municipal funds and the Government grant out of the

the Town Improvement Grants They have also resolved to request the Government to waive ~~to~~^{to} and plant charges

The Sub Division Officer, Tiptur Sub Division, who was requested to place before the Municipal council whether it is worthwhile to have a town hall at Turuvekere at an estimated cost of Rs 41,400/- when the Municipal council have undertaken to maintain a Municipal High School and to incur an expenditure connected with the formation of II stage drainage work at an estimated cost of Rs 10,000/- has submitted the resolution of the Municipal council dated 22 7 48 resolving that the construction of the Town Hall may be taken up immediately as it is of an urgent necessity

The President, Municipal Council in his report, dated 20 8 48 states that the closing balance of the municipality on 1 8 48 was Rs 31,068/-2-7 and that a sum of Rs 10,000/- (this sum included the Government grant of Rs 5000/- drawn and deposited with the Municipal funds on 30 6 48) will have to be immediately credited to Public works Department for the execution of the second stage of the drainage work and that a further sum of Rs 5000/- being the guarantee fund in respect of the Municipal High School will also have to be deposited After depositing the amounts noted above, there will be a balance of Rs 16,068-2-7 at the credit of the municipality The resolutions of the Municipal council are herewith forwarded to Government, for favour of consideration

I may state that
In this connection, it is too much to build a Town Hall at an estimated cost of Rs 41,400/- for a small municipality like Turuvekere Town Besides it is not an urgent necessity The Municipal council has since started a Municipal High School which requires lot of money

In these circumstances I request that the question of building

building a town hall may kindly be ordered to be postponed for some couple of years

The entire file of records ending with report No A2-C 950/47-48 dated 31 8 48 from the Sub Division Officer Tiptur Sub Division, are herein enclosed

Yours faithfully,

H. S. Srinivas
